Safety You can count on

As an INTREN company, ETC has adopted and implemented the INTREN safety program. It is a measured approach driven and supported by the executive leadership of the organization. The program focuses on leading indicators, such as mentoring of inexperienced employees, continued compliance and technical training for all employees and an increased focus on field audits by all levels of field leadership and management. By focusing on leading indicators, we can drive down incidents. Targeted metrics are set and measured at timely intervals to ensure we reduce injuries and accidents.
